If you are accepted as a vendor a space will be allotted to you. All Vendors must check in with the Vendor Coordinator or designate before entering site and setting up.

Vendors are required to provide flooring, their own power cords (minimum length of 200 ft.) Crafters needing part of a single circuit for lights (bring your own ext. cord), sump pump, hand wash sinks, hose, water, lighting, display tables, chairs, tent/canopy (which must be pegged to withstand inclement weather), and all other equipment.

The electric grid at the fair is limited, and electrical needs are an important consideration in the selection process. The festival is an eco-aware event, and requires vendors to participate in composting, recycling and other green programs.

Vendor Structure Policy (NEW for South Country Fair 2016!)

At the fair vendors should expect the possibility of inclement weather with winds up to 100KM. Every year there is at least one tent destroyed due to it not being of sufficient strength and design, and or not being secured correctly. Vendors using tents will be required to use tents **like** an EZEUP: <http://www.ezup.com/eclipse.html>

No lesser tents will be allowed at the fair. E.g. cheap imitations sold at box stores, gazebos and the like.

Tents will also be secured with **2 quality ropes** of no less than **1/4" thick** at **each corner** which are attached to the ground with quality **stakes of 9"** or more.

The determination of quality of tents and their attachments is entirely up to the discretion of the Vendor Coordinator and designates. If either aspect is found to be insufficient you will not be allowed to set up or be required to take down until such time as any insufficient aspects are remediated.

This policy is for the safety of fairgoers and the well being of Vendors.

Vendor Vehicle Policy

Over the past few years, we have had several close calls, wherein vendor vehicles have posed serious safety risks to fair-goers, especially children. In order to address this problem and reduce the risks of an accident, the following vendor vehicle policy has been implemented for South Country Fair.

Vendors may use vehicles to set up and stock booths until 3pm on Friday. After which, vehicles may be used to restock booths only between the hours of 5am and 7am. Otherwise, rickshaws or carts may be used for restocking purposes. Vendors may use vehicles to pack up their operations, on Sunday, one hour after the music and festivities on the main stage have come to an end. When not being used for restocking purposes, vendor vehicles are to be parked in the public fairgoer lot in the vicinity of the Main Gate.

- Vehicles that enter the grounds must not exceed a speed limit of 5km/hr (average walking speed)
- When reversing or parking your vehicle, you **must** have a spotter

Vendor Camping Policy

In order to better manage and secure the stage area, vendors are not allowed to camp within the stage area and, instead, will be asked to camp in the designated vendor camping area. Vendors with camping vehicles (trailers, motor homes, tent trailers, camping vans and campers) will be provided with complimentary vendor vehicle access pass. Vendors with special circumstances can apply to sleep in dual purpose trailers (business/rest). When applying for an exception please provide a detailed explanation as to the necessity of having a trailer. In the rare circumstance that an exception given it is understood that from the time the music ends until 7am, you are welcome to sleep in your trailer but you cannot hang out anywhere else in the mall area. No pets allowed. All South Country Fair rules apply to vendors as well.

Vendor Hours of Operation

In order to provide the opportunity to secure, clear and clean the stage area, on Friday and Saturday night, vendors must close their booths no later than 10 minutes after the music on the Main Stage has come to an end and may reopen no sooner than 8am the following morning.
